Caesarstone® is made from natural quartz and therefore some variation in colour and aggregate may occur. The colours in this brochure are to the highest standards in printing, however, should only be used as an indication of actual product design. We always recommend making a final colour selection by viewing displays of larger panels in your nearest Caesarstone® showroom or kitchen retail showroom to appreciate the movement of the design over a large surface.

Cutting-edge, urban aesthetic.

Caesarstone® leads the industrial trend by embracing the essence of unique materials such as oxidised steel, weathered cement & hand-poured concrete.
